

# ***Safe Scouting, Your Roadmap to Safety***

## **Suffolk County Council Health and Safety Policies**

1. All units must have knowledge of where to access the most current digital version of the [Guide to Safe Scouting](#), as well as the [Sweet 16 of BSA Safety](#), and [Safety Moments](#) for activities planned. Units should also know who their District Safety Champion is.
2. All units should have a Safe Scouting/YPT Champion responsible for reviewing and providing Health and Safety guidelines before any activities, as well as reviewing and adhering to the [BSA Code of Conduct](#).
3. A designated adult from each district and unit have the responsibility to review and implement safety guidelines to ensure risks have been minimized.
4. Current [Annual Health and Medical Forms](#) part A and B should be reviewed and updated each year prior to activities and events. Part C must be included for any high risk activity or those over 72 hrs in length. Medical forms are to be hard copied and hand carried by a designated adult, not stored electronically, on any activity or event, especially those activities more than 72 hrs in length and required by the Guide to Safe Scouting.
5. District and Council Volunteers should have their Annual Health and Medical part A and B on file annually for activities and events as well.

These guidelines will be provided to our Commissioners and Professional Staff for help and guidance on Safe Scouting in Suffolk County Council.
